// GETTING THERE

Directions

Charlton Sports and Leisure Centre is not far off the A303 to the west of Andover on the edge of the Portway Industrial Estate. The postcode SP10 3LF is not quite where the event is but it will get you to within the perimeter of our signs! What3Words: ///timing.saves.whirlwind

Parking

There is parking next to the course on asphalt and hard-standing, and additional parking along the roads of the industrial estate adjacent to the course. The upper car park is quite small and has car-sized spaces marked. **We are therefore kindly asking those with vans not to use this car park. Please follow the directions of marshals.** We will also have access to overflow parking next door to the venue at Andover FC.

15 NOVEMBER 2026

ANDOVER SUPERCROSS
Wessex CX League · hosted by SRAMcc

// REGISTRATION

Sign-on is in a gazebo near the finish line. You need to sign on first, before going to get a chip from the chip timing tent. **Make sure you have signed on no later than 15 minutes before your race starts.**

If you are pre-registered with the league, please remember your number. All other riders will need to pick up a new number that should be returned to the sign-on desk after the race. If you are entering on the day, please remember to bring your racing licence (if you have one). A day licence can be purchased at registration for £5. U8, U10, U12, U14 and U16 riders do not require a licence.

Race results: entry lists and live results on the day are available at my.raceresult.com

// IMPORTANT

⛔ No riding on the athletics track or in the gazebo area

The athletics track and the infield where the club gazebos are pitched are strictly out of bounds to bikes. There is to be no riding, warming up or rolling through this area at any time during the day — please push your bike if you need to get to your club gazebo. **Anyone seen riding on the athletics track or in the gazebo area will be disqualified.**

// THE COURSE

Course — 2,540 metres

A classic cyclocross blend of road, flat grass, steep banks, tracks, sand, plus a bit of BMX track! Please see the course maps and go to Wessex League Cyclocross 2026 – Round 11 – Andover SuperCross for a video of the previous year's course.

Riders must dismount for hurdles

The course crosses a bridleway. Due to legal idiosyncrasies, cycle races cannot be run on bridleways. In the past we have constructed bridges and raised platforms over the bridleway. This year there will be a hurdle before the bridleway crossing in each direction where riders must dismount before remounting after the bridleway. There will be clear signs. **Any riders bunny hopping the hurdles and riding over the bridleway will be disqualified.**

Gridding

This is based on your best three results from your last five Wessex races. More details on the process can be found on the league rules page.

Sweeper

After the winner of each race crosses the line, a ‘sweeper’ will ride the course at a respectful distance behind the last rider. Do not practise on the course until the sweeper has passed, and do not overtake the sweeper.

// ON THE DAY

Pits

There is a double pit with a tarmac surface. Please take note of the pit layout during your sighting lap(s) and take extra care with your bike changes on the tarmac. The bike wash area is immediately adjacent to the pits. There is no water supply close by, so please bring your own water. **Due to the ongoing hosepipe ban across Hampshire, jet washers are not allowed.**

Event village & gazebos

There will be a frites van and a coffee/cake trailer near the pits. Clubs can pitch gazebos inside the athletics track, accessed by the road by the registration tent. **Cycling is forbidden in the enclosure and on the athletics track — this will be strictly enforced and will result in disqualification.**

Free BMX pump track taster sessions

Fancy trying something different between races? Free BMX pump track taster sessions are running on the day. **Everything is provided**, so there is no need to bring anything — just come along and have a go!
